The Chemical Engineering Club provides an opportunity for students from chemical engineering and other related majors to learn about the chemical engineering field. Emphasis is placed on acquiring knowledge about the opportunities and responsibilities of engineers in industry, to encourage interest in chemistry and engineering, and to prepare students for careers in chemical engineering.

During this year, the club hosted guest speakers from industry to discuss current issues facing industry and the world such as methods of waste disposal and nuclear power safety. In addition to discussing the problems, the speakers present technical aspects of the solutions which illustrate the application of chemical engineering processes and techniques. The club also goes on field trips to industries.

## Delta Phi Epsilon

The 45 sisters of Delta Phi Epsilon are a diversified group and represent all majors. Along with winning the Celluci Cup for the past two years, the sisters were active this year in sponsoring an Air Band with the Student Nurses Association, a candy sale for anorexia nervosa, the United Way Drive, and the annual Harvest Fest. They also assisted with the bloodmobile, held several "50-50" raffles, and participated in Greek Town Watch. The sisters were named the "Most Improved Delta Phi Epsilon Chapter" at the 1985 convention. The objectives of the chapter are to maintain and improve individual education and to influence members to achieve the liberal spirit of sisterhood.

## ***Economics Club***

The Economics Club was established to provide a congenial atmosphere for lectures, debates, and discussions on contemporary economic issues. It strives to bring faculty and students together in a pleasant atmosphere as well as establishing professional contacts for its members. Activities this year included a panel discussion by alumni on their job search process and the types of offers they received, a Jobs Fair where representatives from area employers came to discuss job opportunities in their respective fields, a trip to the New York Stock Exchange, and a banquet at Cuisines Restaurant.

**First row:** Mark Racioppi (secretary). **Second row:** Professor Saltzman, Daniel Astolfi. **Third row:** Daniel Fitzpatrick (president), Professor Williams.

## ***Foreign Language Club***

The new Foreign Language Club of Widener consists of students interested in learning about various foreign cultures. The club includes students studying Spanish, French, Italian, and German, although the knowledge of a language is not required to join. The club's activities include participating in the International Christmas Party given by the Modern Languages faculty, creating an outdoor International Spring Festival, sponsoring a trip to New York City to see an opera or play done in a foreign language, and sponsoring the showing of foreign films in all languages approximately every other week throughout the year. The films are free and are open to anyone interested.

The Greek Orthodox Club, whose new name is the Hellenic Student Association, is an organization of students of Greek descent and philhellenes. Its main objectives are to bring together Greek, Greek-American, and other students of different ethnic and cultural backgrounds, and to promote friendship and fraternity among them. Another goal is to provide a Hellenic educational experience for both Greeks and non-Greeks alike. Although the club had a slow start in the fall semester, activity picked up speed during the spring semester. Highlights of this activity included the approval of amendments to the constitution for improved governance, two parties for both members and non-members, participation in a seminar held at Temple University on current Greek life, elections of new officers for the 1986-87 academic year, and the preparation and approval of a budget for the next academic year.

## Hillel

Hillel's purpose is to serve the Jewish community at Widener. An affiliate of B'nai Brith, Hillel organizes religious, social, cultural, and educational activities on the Widener campus. In addition, Hillel provides information concerning activities at other colleges in the area as well as in the Philadelphia area Jewish community as a whole. Hillel is also involved with service to the community including Zionist and Soviet Jewry activities. Hillel is also the place to look if you are interested in learning about study opportunities in Israel.

# IEEE

The Institute of Electrical and Electronic Engineers is the largest technical organization in the world. The student chapter at Widener is very active and visible to the Electrical Engineering population. IEEE activities include industrial plant trips, technical lectures, and social affairs. A plant trip to the General Motors assembly plant, where members were able to view robotics technology, was very successful. The annual engineering party is a favorite event where engineering students from all curriculum and the faculty are able to meet and have a good time. Present IEEE membership is approximately 40 and is growing at about 10% per year.
